

# Electrolux Juarez

COVID-19 Actions

- Since mid-March, we implemented many important safety controls
- Most importantly, we are sanitizing, disinfecting and creating social distance
- Using WHO & CDC guidelines as a foundation for these activities

# Health Screenings

Administering daily employee temperature checks using infrared thermometer at entrance.

# Physical Distancing

Workstations were updated with physical plexiglass barriers to protect employees.

# Physical Distancing

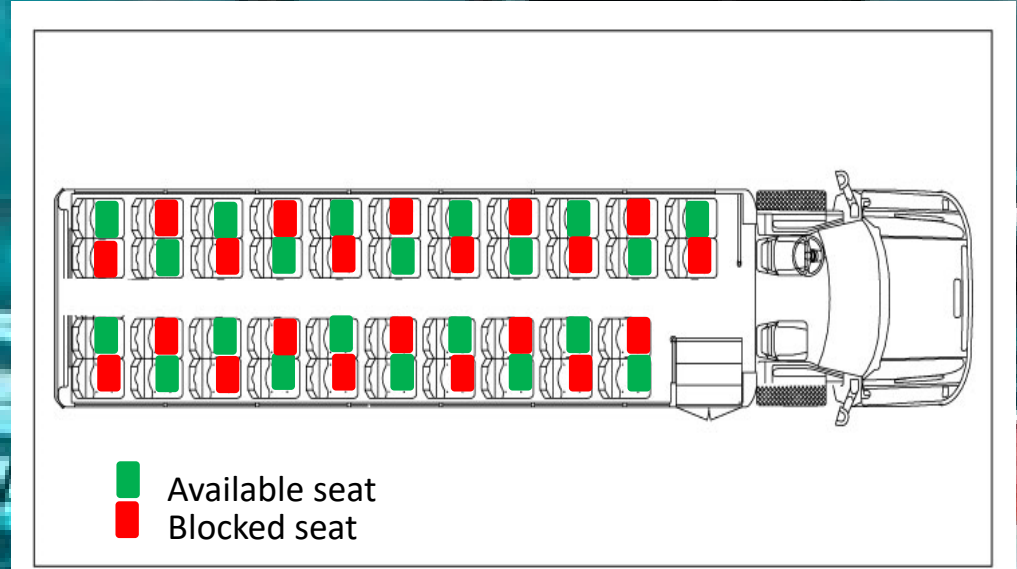

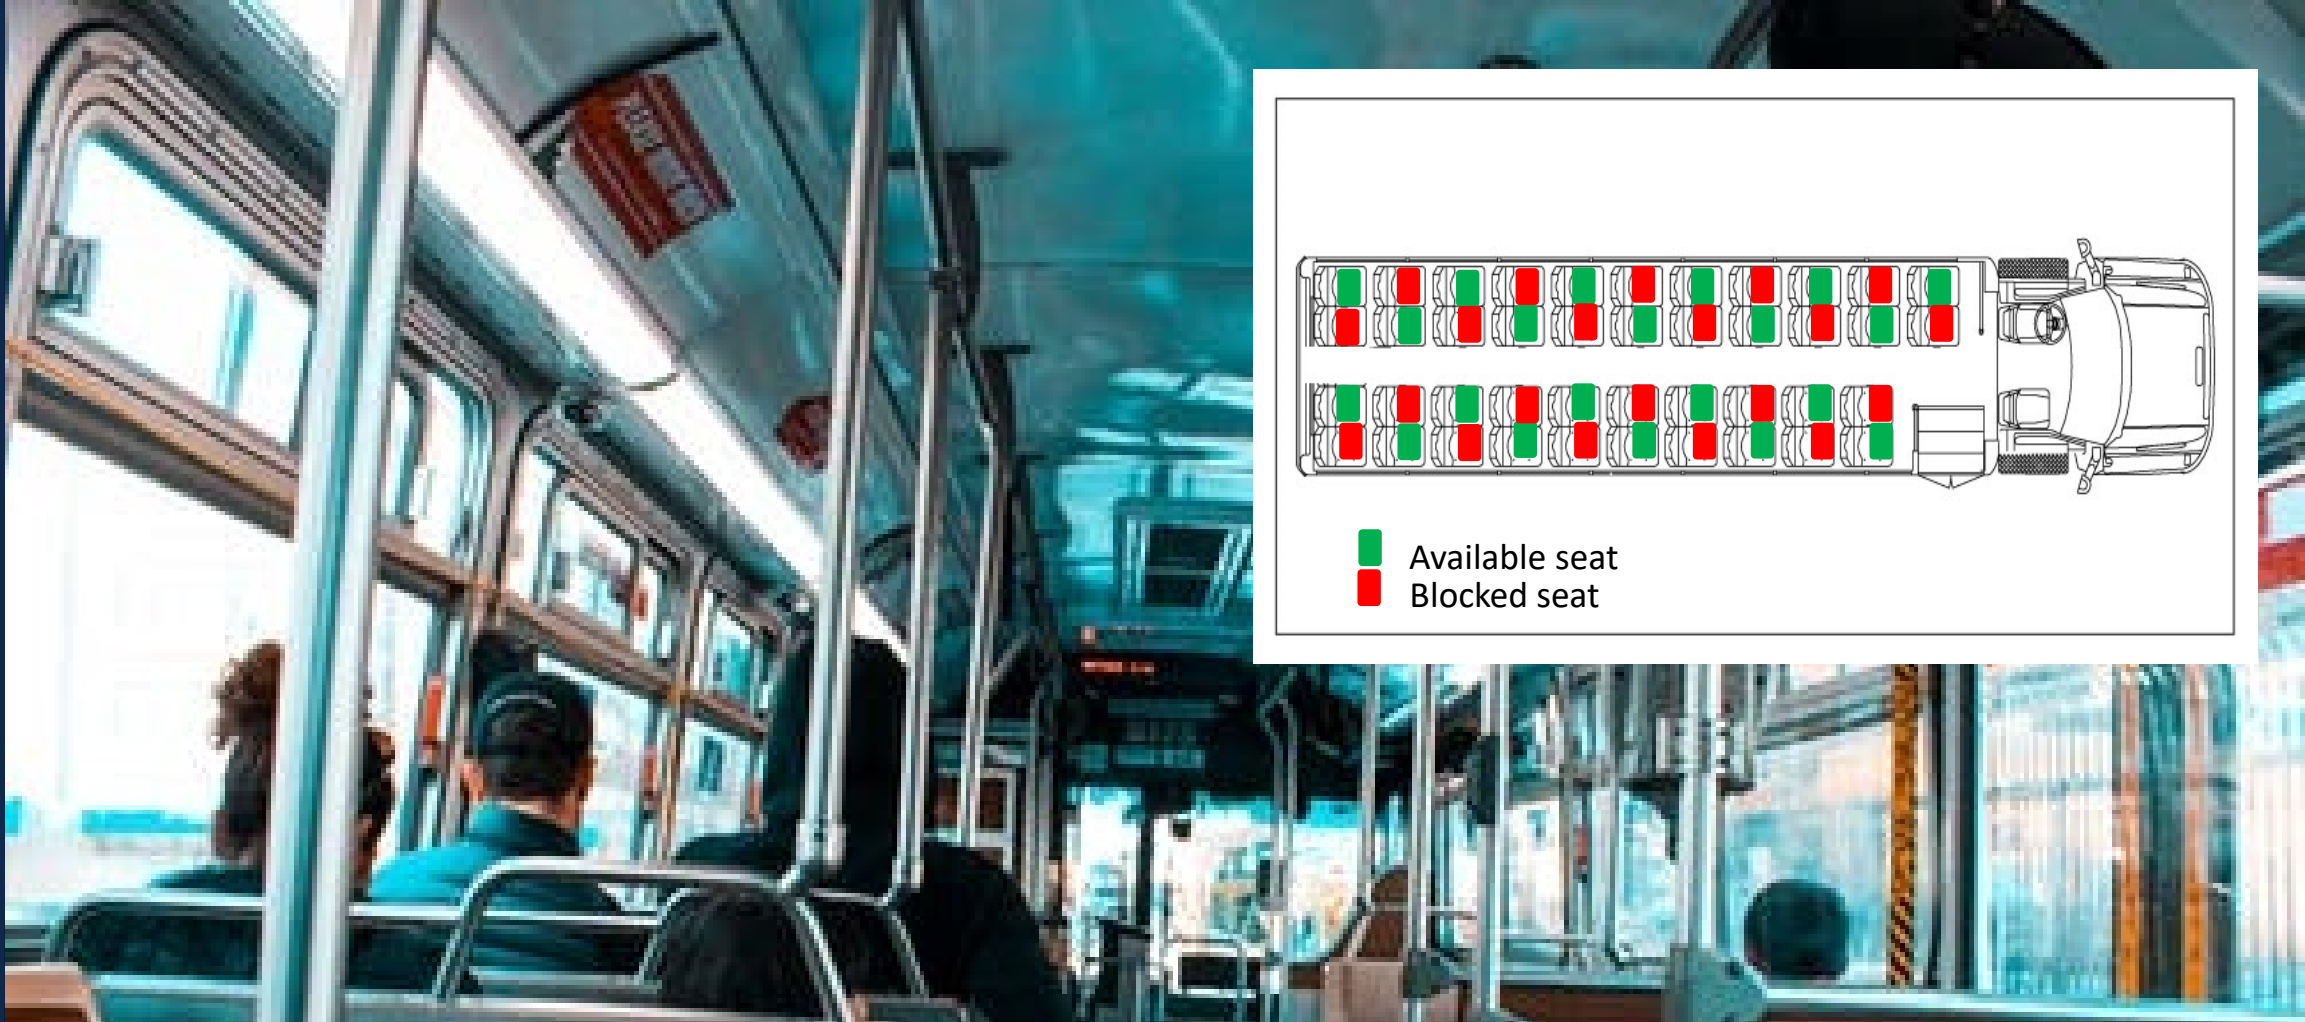

Implemented physical distancing measures in all areas, including entering/exiting the facility, walkways, food service, cafeteria and breakrooms. Doorways are kept open and we added outside eating areas.

# Physical Distancing

# Physical Distancing

Doubled the number of buses to/from campus to increase physical distance and limit team member interaction.

# Disinfection

- We are professionally fogging, disinfecting and sanitizing.
- We are also doing frequent daily sanitization of high touch areas, including hand tools, buttons, handles, trays, and equipment.

# Disinfection

Hand sanitizer available throughout all facilities.

# Personal Protective Equipment

- Surgical masks are mandatory and provided daily to all employees.
- Face shields are being used where physical barriers are unable to be installed.
