# Strong campaign in Australia

The image shows the front cover of the Winter 2004 issue of Electrolux DownUnder magazine. The title 'DownUnder' is prominently displayed at the top in large white letters, with a small map of Australia to its right. Below the title, the subtitle 'Electrolux "Accelerates" Downunder' is written in a large, bold, sans-serif font. The background of the cover features a photograph of Earth from space, with a bright light source creating a lens flare effect. At the bottom left, there is a portrait of Trevor Carroll, the MD of Electrolux Australia. The overall design is professional and modern.
