

# Consolidated results 2009

Stockholm, February 3, 2010

## Highlights of the fourth quarter of 2009

- Net sales amounted to SEK 28,215m (28,663) and income for the period was SEK 664m (-474), or SEK 2.34 (-1.68) per share.
- Net sales declined by 1% in comparable currencies, due to continued weak markets.
- Price and mix continued to have a positive effect on sales.
- Operating income amounted to SEK 2,023m (-389), corresponding to a margin of 7.2%, excluding items affecting comparability.
- Results improved across all business areas.
- Lower costs for raw materials positively impacted income. However, costs for raw materials increased in the quarter compared to the third quarter of 2009.
- Cost savings, sales prices and lower costs for raw materials contributed strongly to the improvement in income.
- Extra contributions of SEK 3,935m to Group pension funds in fourth quarter resulting in appropriate funding levels and reduced balance-sheet risk exposure to pension commitments.
- Continued strong operating cash flow in the quarter, excluding extra pension contributions, resulted in a very strong cash flow for 2009.
- The Board proposes a dividend for 2009 of SEK 4.00 (0.00) per share.

## Net sales and income

#### Fourth quarter of 2009

Net sales for the Electrolux Group in the fourth quarter of 2009 amounted to SEK 28,215m (28,663). Sales were adversely impacted by lower volumes, while price and mix had a positive impact. Net sales decreased by 1% in comparable currencies.

#### Change in net sales

| Total                       | -1.6    | 4.1  |

#### Operating income

Operating income for the fourth quarter of 2009 increased to SEK 805m (-347) and income after financial items to SEK 801m (-530). Lower costs for raw materials had a positive impact on operating income. However, costs for raw materials increased in the fourth quarter compared to the third quarter of 2009. Previous price increases and cost savings also contributed to the improvement in income. Income for the period amounted to SEK 664m (-474), corresponding to SEK 2.34 (-1.68) in earnings per share.

In the light of the sharp market decline by the end of 2008, a costs savings program was initiated in the fourth quarter to reduce the number of employees by approximately 3,000. All operations on a global basis were affected. In the fourth quarter of 2008, non-recurring items were charged against operating income in the total amount of approximately SEK -1,115m, see table below.

#### Items affecting comparability

Operating income for the fourth quarter of 2009 includes items affecting comparability in the amount of SEK -1,218m (42), referring to restructuring provisions related to appliances plants and consolidation of corporate operations in North America, see page 7 and table on page 11. Excluding items affecting comparability, operating income amounted to SEK 2,023m (-389).

#### Effects of changes in exchange rates

Changes in exchange rates compared to the previous year, including both translation and transaction effects, had a positive impact of SEK 304m on operating income for the fourth quarter of 2009, compared to the same period in the previous year. Transaction effects net of hedging contracts amounted to SEK 358m, and referred mainly to the strengthening of the Australian dollar and the Brazilian real against the US dollar. Translation of income statements in subsidiaries had an impact of SEK -54m.

The effect of changes in exchange rates on income after financial items amounted to SEK 311m.

#### Financial net

Net financial items for the fourth quarter of 2009 amounted to SEK -4m, compared to SEK -183m for the corresponding period in the previous year. The improvement is mainly due to lower interest rates on borrowings and lower net borrowings.

#### Full year of 2009

Net sales for the Electrolux Group in 2009 amounted to SEK 109,132m, as against SEK 104,792m in the previous year. Sales were adversely impacted by lower volumes, while higher prices and an improved mix had a positive impact. In comparable currencies, net sales declined by 5%.

#### Operating income

Operating income for 2009 increased to SEK 3,761m (1,188) and income after financial items to SEK 3,484m (653). Previous price increases, an improved mix, lower costs for raw materials and cost efficiency measures contributed to the improvement in income. Income for the period increased to SEK 2,607m (366), corresponding to SEK 9.18 (1.29) in earnings per share.

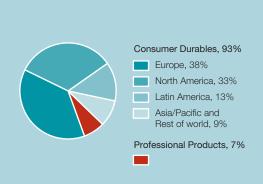

Operating income in the first quarter of 2009 was negatively impacted by the North American launch in the net amount of SEK -200m. In 2008, non-recurring items were charged against operating income in the total amount of approximately SEK -1,945m, see table below.

#### Operating income and margin\*

\* Excluding items affecting comparability.

#### Items affecting comparability

Operating income for 2009 includes items affecting comparability in the amount of SEK -1,561m (-355), see table on page 11. Excluding items affecting comparability, operating income for 2009 increased to SEK 5,322m (1,543) and income after financial items to SEK 5,045m (1,008). Income for the period was SEK 3,851m (656), corresponding to SEK 13.56 (2.32) in earnings per share.

#### Effects of changes in exchange rates

Changes in exchange rates compared to the previous year, including both translation and transaction effects, had an impact of SEK -295m on operating income for 2009. Transaction effects net of hedging contracts amounted to SEK -333m, and referred mainly to changes in exchange rates related to the US dollar and the euro against several other currencies. Translation of income statements in subsidiaries had an effect of SEK 38m.

The effect of changes in exchange rates on income after financial items amounted to SEK -278m.

#### Financial net

Net financial items for the full year of 2009 decreased to SEK -277m, compared to SEK -535m for 2008. The improvement is mainly due to lower interest rates on borrowings and lower net borrowings.

#### Taxes

Total taxes in 2009 amounted to SEK -877m (-287), corresponding to 25.2% (44.0) of income after financial items. The tax rate for 2009 was positively impacted by reversal of a tax provision following a tax settlement in Europe. The tax rate in 2008 was negatively impacted by the low level of earnings.

## Market overview

Some of Electrolux main markets started to show some recovery during the fourth quarter of 2009, although compared to a very weak fourth quarter of 2008. The North American market rose slightly after thirteen consecutive quarters with decline. In the fourth quarter, industry shipments of core appliances in the US increased by 4%. Demand in some markets in Europe, as Germany, France, and Italy showed some stabilization. However, most of Electrolux main markets continued to show a decline although at a lower rate than in previous quarters. The European market has been falling for nine consecutive quarters. Eastern Europe showed a continued downturn in the fourth quarter, declining by 17%. Demand in Western Europe declined by 2% and the total market in Europe by 7%. The market in Brazil continued to increase in the fourth quarter due to temporary tax reductions on domestically-produced appliances.

There are no indications of a strong recovery in any of the Group's main markets, and therefore we only expect a modest improvement from the currently low level of market demand for appliances in 2010.

## Business areas

Changes in net sales and operating income by business area in comparable currencies are given on page 15.

Operating income for the fourth quarter and the full year of 2008 includes non-recurring items and provisions for cost-cutting programs in the net amounts of SEK -800m and SEK -1,150m, respectively, see page 2.

#### Industry shipments of core appliances in Europe

| Units, year-over-year, %          | Q4 2009 | 2009 |
|-----------------------------------|---------|------|
| Western Europe                    | -2      | -6   |
| Eastern Europe (excluding Turkey) | -17     | -25  |
| Total Europe                      | -7      | -11  |

#### Core appliances

Demand for appliances in Europe during the fourth quarter of 2009 continued to decline in comparison with the same period in 2008. The rate of decline was lower than in the first three quarters, however. Demand declined by 7% compared to the last quarter of 2008. Shipments in Western Europe fell by 2% and demand continued to decline in several of the Group's major markets, including the UK, Spain and the Nordic region. Demand rose in Germany, France and Italy. Industry shipments of appliances in Eastern Europe declined by 17%.

Group sales showed a continued decline in both the fourth quarter and the full year of 2009, due to lower volumes, resulting from the weak market.

Operating income was substantially higher for both the fourth quarter and the full year in comparison with 2008. Factors contributing to the improvement included a positive price and mix development and lower costs for raw materials. However, costs for raw materials increased in the fourth quarter compared to the previous quarter. Personnel cutbacks and other cost-cutting measures during the year also contributed to the improvement in income.

Quelle of Germany, one of the Group's major retailers, went into bankruptcy in the fourth quarter of 2009. This reduced the Group's sales of appliances under private labels. At the same time, Electrolux strengthened its position in the market for built-in products.

## **Consumer Durables, Europe**

#### Industry shipments of core appliances in Europe\*

#### Floor-care products

Demand for vacuum cleaners in Europe continued to decline in the fourth quarter and the full year of 2009 in comparison with 2008. The downturn in the fourth quarter was lower than in the first three quarters, however.

Group sales in the fourth quarter were in line with the corresponding period in 2008, despite lower volumes, as sales in the premium segment increased. Operating income improved substantially due to an improved product mix. Mainly as a result of the launches of the premium vacuum cleaner UltraOne at the beginning of the year as well as other premium products during the second half of 2009.

Demand for vacuum cleaners in the full year of 2009 was lower than in 2008. Group sales declined as a result of lower sales volumes, and operating income was lower. The decline in income was offset to some extent by an improved product mix, lower product costs, and cost savings.

#### **Consumer Durables, North America**

| SEKm                | Q4 2009 | Q4 2008 | 2009   | 2008   |

| Operating margin, % | 5.7     | -0.5    | 4.1    | 0.7    |

Operating income for 2008 includes the net impact of the launch in North America of the Electrolux brand, costs related to cost-cutting measures, and other non-recurring items in the amounts of SEK -115m for the fourth quarter and SEK -595m for the full year, see page 2.

#### Industry shipments of core appliances in the US

| Units, year-over-year, % | Q4 2009 | 2009 |
|--------------------------|---------|------|
| Core appliances          | 4       | -8   |
| Major appliances         | 2       | -14  |

#### Core appliances

Market demand for core appliances in the US showed an increase in the fourth quarter of 2009, following thirteen consecutive quarters of decline. Demand increased by 4% in the fourth quarter in comparison with 2008.

Group sales in comparable currencies were lower in both the fourth quarter and the full year in comparison with 2008. However, a positive price and mix development provided some compensation for lower sales volumes. Sales volumes were impacted by increased competition within the laundry-product category.

Operating income rose considerably for both the fourth quarter and the full year in comparison with 2008, despite lower volumes. Factors contributing to the improvement in income included a positive price and mix development, higher internal efficiency and lower costs for raw materials. However, costs for raw materials increased slightly in the fourth quarter compared to the previous quarter. Income was positively affected by higher productivity at the Group's plants despite lower utilization of capacity.

The re-launch of new products under the Frigidaire brand during the year contributed to mix improvements, as well as the Electrolux brand which increased market share in the kitchen-product category.

#### Floor-care products

Market demand for vacuum cleaners in North America increased in the fourth quarter in comparison with the corresponding period in 2008. Group sales rose as a result of higher sales volumes, particularly due to seasonally high volumes for Thanksgiving. Operating income improved on the basis of cost savings and lower product costs.

For the full year 2009, demand for vacuum cleaners was lower than in the previous year. Group sales increased somewhat as a result of higher volumes, primarily in the low- and mid-range price segments. Operating income and margin were in line with 2008. Income was positively affected by cost-cutting measures and lower product costs.

#### Consumer Durables, Latin America

| SEKm                | Q4 2009 | Q4 2008 | 2009   | 2008   |
|---------------------|---------|---------|--------|--------|

| Operating income    | 368     | 244     | 878    | 715    |
| Operating margin, % | 8.4     | 7.4     | 6.2    | 6.5    |

Operating income for the fourth quarter of 2008 includes costs related to cost-cutting measures, in the amount of SEK -10m, see page 2.

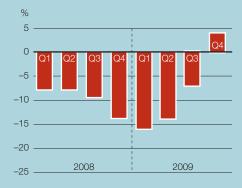

Market demand for appliances in Latin America is estimated to have risen during the fourth quarter of 2009 in comparison with the same period in 2008, on the basis of strong growth in Brazil. The increase in Brazil resulted from the Brazilian government's stimulus package, in the form of lower taxes on domestically-produced appliances. Lower interest rates and greater access to credit also contributed to increased consumption. Market demand continued to decline in most of the other Latin American markets.

The Group's sales volumes showed a continued increase in both the fourth quarter and the full year in comparison with 2008. Sales

were substantially higher, and the Group captured additional market shares in Brazil. Operating income for both the fourth quarter and the full year improved on the basis of positive price and mix development and lower costs for raw materials. Operating margin for the full year declined, following the weak performance in the first quarter.

Launches of new products during the year contributed to the improvement in the product mix. For the second consecutive year, operating income for the Latin American operation was at a record high.

Operating income for the fourth quarter of 2008 includes costs related to cost-cutting measures, in the amount of SEK -110m, see page 2.

#### Australia and New Zealand

Market demand for appliances in Australia continued to decline during the fourth quarter. Group sales were higher, mainly as a result of increased sales of air-conditioners. Operating income improved, primarily on the basis of higher sales volumes, positive development of sales prices, currency and raw materials.

Market demand for appliances in Australia for the full year of 2009 is estimated to have been lower than in 2008. Group sales rose on the basis of higher sales volumes and maintained price levels. Operating income showed an improvement as a result of positive development of raw materials and sales prices as well as cost-cutting programs.

#### Southeast Asia and China

Market demand in Southeast Asia is estimated to have been somewhat higher in the fourth quarter, following three consecutive quarters of decline, compared to the same period in the previous year. Demand in the full year was unchanged.

Group sales in Southeast Asia showed strong growth in several markets in the fourth quarter and the full year, and the Group captured market shares. The operation in Southeast Asia continued to show good profitability.

The operation in China was positively affected by implemented cost-cutting measures as well as the repositioning of the Electrolux brand.

Estimates of market demand for food-service equipment indicate a continued decline in the fourth quarter of 2009 in comparison with the same period in the previous year.

Group sales of food-service equipment declined in the fourth quarter as a result of lower sales volumes, a less favorable product mix, and downward pressure on prices. Despite lower sales and lower utilization of capacity, operating margin was in line with the fourth quarter of 2008, primarily on the basis of lower costs for raw materials, previous personnel cutbacks, and more efficient production.

Group sales of food-service equipment declined for the full year 2009 in comparison with 2008, as a result of lower sales volumes, and operating income also declined.

Estimates of market demand for laundry equipment indicate a continued decline in the fourth quarter of 2009 in comparison with the same period in the previous year. Group sales rose as a result of higher sales volumes, and market shares expanded. Operating income and margin improved, mainly on the basis of higher sales volumes, implemented cost-cutting measures and favorable exchange rates.

Group sales of laundry equipment were lower for the full year 2009 in comparison with 2008, as a result of lower sales volumes. Operating income improved, however, on the basis of lower costs for raw materials, favorable exchange rates, price increases and lower costs for production and administration.

#### Cash flow

Cash flow from operations and investments in the fourth quarter of 2009 amounted to SEK -1,440m (966). Exclusive of extra contribution to pension funds, the cash flow for the quarter was very strong, amounting to SEK 2,495m.

SEK 3,935m was paid to the Group's pension funds during the quarter. This included payments to pension funds in Germany, the US and the UK. The payments have reduced the Group's pension net debt, limited risk exposure and volatility in pension liabilities.

The strong cash flow was generated by the increased income from operations and by changes in operating assets and liabilities. Cash flow from working capital continued to be very positive in the fourth quarter. Seasonally lower sales and production in December had a positive effect on trade receivables and inventories. Inventory levels declined steadily during the year. The Group's ongoing structural efforts to reduce tied-up capital also contributed to the strong cash flow in the quarter and the full year of 2009. The Group's inventories, trade receivables and accounts payable developed favorably in relation to net sales, see table on page 14.

Payments for previously delivered air-conditioners in the US had an adverse effect on cash flow in the amount of approximately SEK 900m during the quarter. Outlays for the ongoing restructuring and cost-cutting programs amounted to approximately SEK 220m.

Investments during the fourth quarter of 2009 referred mainly to manufacturing systems for new products, and to reinvestment. In 2008, investments included new plants in connection with relocation of production.

Cash flow from operations and investments for the full year 2009 amounted to SEK 9,265m, exclusive of pension payments.

#### **Net borrowings**

Net borrowings amounted to SEK 665m (4,556). The net debt/equity ratio was 0.04 (0.28). The equity/assets ratio was 31.8% (25.6).

During 2009, SEK 1,639m of new long-term borrowings were raised. Long-term borrowings as of December 31, 2009, excluding long-term borrowings with maturities within 12 months, amounted to SEK 10,241m with average maturities of 3.9 years, compared to SEK 9,963m and 4.7 years by the end of 2008.

During 2010 and 2011, long-term borrowings in the amount of SEK 2,217m will mature. Liquid funds as of December 31, 2009, excluding a committed unused revolving credit facility of EUR 500m, amounted to SEK 13,357m.

#### Net assets and working capital

Average net assets for the period amounted to SEK 19,411m (20,538). Net assets as of December 31, 2009, amounted to SEK 19,506m (20,941).

Adjusted for items affecting comparability, i.e., restructuring provisions, average net assets amounted to SEK 20,320m (21,529), corresponding to 18.6% (20.5) of net sales.

Working capital as of December 31, 2009, amounted to SEK -5,154m (-5,131), corresponding to -4.5% (-4.4) of annualized net sales.

The return on net assets was 19.4% (5.8), and 26.2% (7.2), excluding items affecting comparability.

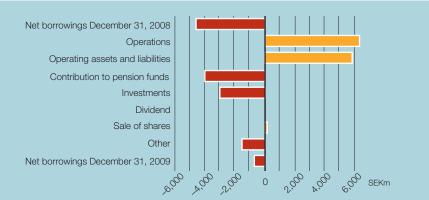

## **Pension commitments**

The provisions for post-employment benefits as of December 31, 2009, decreased to SEK 2,168m (6,864), mainly as a result of extra contributions of SEK 3,935 to pension funds in December.

# Structural changes

## January 2010

Production of cookers in Sweden to be phased out

In 2009, an analysis was performed of a possible phase-out of cooker production in Motala, Sweden. It was subsequently decided that the Group's production of cookers in Motala will be discontinued. The greater part will be phased out and it is intended that an external part will take over production of large cookers and compact-kitchens. Approximately 240 people are employed at the plant. The cost of the discontinuation is estimated at approximately SEK 90m, which will be charged against operating income, within items affecting comparability in the first quarter of 2010.

#### December 2009

North American corporate office operations to be consolidated To take advantage of synergies, improve coordination and increase efficiencies, it has been decided to consolidate most of the US corporate office operations and support functions into one single location. The new corporate headquarters will be located in Charlotte, North Carolina.

Consolidation will be done gradually and is scheduled to start in the third quarter of 2010. The cost for the consolidation is estimated to SEK 218m, which was charged to operating income of in the fourth quarter of 2009, within items affecting comparability.

#### October 2009

Production of laundry products in North America to be concentrated

Decision has been taken to concentrate production of laundry products in North America to the Group's factory in Juarez, Mexico, while ceasing production at the plant in Webster City and its satellite plant in Jefferson, Iowa. A total of approximately 950 employees will be affected.

Production is expected to be discontinued at the Jefferson plant in the fourth quarter of 2010 and at the Webster City plant in the first quarter of 2011. The cost for the closures is estimated to SEK 560m, which was charged to operating income in the fourth quarter of 2009, within items affecting comparability.

Production at the washing-machine factory in Spain to be discontinued

It has been decided to discontinue production at the washing-machine factory in Alcalà, Spain. A total of approximately 450 employees will be affected.

Production is expected to be discontinued in the first quarter of 2011. The cost for the closure is estimated to SEK 440m, which was charged to operating income in the fourth quarter of 2009, within items affecting comparability.

#### April 2009

Washing-machine plant in Russia to be closed

Electrolux will close the plant in St. Petersburg, Russia. Production comprises washing machines mainly for the Russian market, with approximately 250 employees.

The closure is scheduled for completion in the second quarter of 2010. The shutdown involves a total cost of SEK 105m, which was taken as a charge against operating income in the first quarter of 2009, within items affecting comparability.

Refrigerator plant in China has been closed

Electrolux discontinued production at the refrigerator plant in Changsha, China, in the first quarter of 2009. The closure of the factory involved a total cost of SEK 162m, which was taken as a charge against operating income in the first quarter of 2009, within items affecting comparability. About 700 employees were affected by the closure. Distribution of appliances is now concentrated to gain a strong position in the premium segment.

#### March 2009

Higher efficiency at the washing-machine plant in Italy
Electrolux will re-engineer production at the washing-machine
plant in Porcia, Italy, in order to increase efficiency and productivity.
This involves a cost of SEK 132m, which was taken as a charge
against operating income in the first quarter of 2009, within items
affecting comparability.

# Changes in Group Management

# Keith McLoughlin, new Chief Operations Officer Major Appliances

Keith McLoughlin was appointed Chief Operations Officer Major Appliances in July 2009. Keith McLoughlin is responsible for a new global organization for R&D, purchasing and manufacturing, with the objective of taking full advantage of the Group's global reach and economies of scale. Keith McLoughlin is a member of Group Management and reports to the President and CEO Hans Stråberg. Previously, Keith McLoughlin was head of Electrolux Major Appliances North America.

#### Kevin Scott, new head of Major Appliances North America

Kevin Scott was appointed new head of Major Appliances North America in July 2009. He succeeded Keith McLoughlin, who has a new appointment as head of global operations for major appliances, see above. Kevin Scott is a member of Group Management and reports to the President and CEO Hans Stråberg. Previously, Kevin Scott has held various management positions within Electrolux Major Appliances North America. Prior to joining Electrolux, Mr Scott held senior positions with DuPont and Pepsi.

In 2004, Electrolux initiated a restructuring program to make the Group's production competitive in the long term. When it is fully implemented in 2011, more than half of production of appliances will be located in low-cost countries and savings will amount to approximately SEK 3 billion annually. Restructuring provisions and write-downs are reported as items affecting comparability within operating income. For information on provisions in 2009, see table on page 11.

#### Alberto Zanata, new head of Professional Products

Alberto Zanata was appointed new head of Electrolux Professional Products in June 2009. He succeeded Dr. Detlef Münchow, who has left the Group. Alberto Zanata is a member of Group Management and reports to the President and CEO Hans Stråberg. Previously, Mr Zanata has held various management positions within Electrolux operations for professional products.

#### Other items

#### Electrolux has applied for delisting from the LSE

Electrolux has applied for delisting from the London Stock Exchange (LSE). The Electrolux B-share has been listed on the LSE since 1928

The LSE listing has been a part of a strategy to increase international ownership in Electrolux. However, this listing is no longer deemed necessary due to the deregulation of international capital markets and the increased foreign ownership of shares on the Nasdaq OMX Stockholm.

In recent years, trading of Electrolux shares on the LSE has been limited. Electrolux has also exited its other international listings in recent years, including those of Paris, Zurich and Geneva as well as New York's Nasdag.

It is expected that the delisting will become effective during the first quarter 2010.

#### Asbestos litigation in the US

Litigation and claims related to asbestos are pending against the Group in the US. Almost all of the cases refer to externally supplied components used in industrial products manufactured by discontinued operations prior to the early 1970s. Some of the cases involve multiple plaintiffs who have made identical allegations against many other defendants who are not part of the Electrolux Group.

As of December 31, 2009, the Group had a total of 2,818 (2,639) cases pending, representing approximately 3,120 (approximately 3,200) plaintiffs. During 2009, 760 new cases with approximately 760 plaintiffs were filed and 581 pending cases with approximately 850 plaintiffs were resolved. Approximately 40 of the plaintiffs relate to cases pending in the state of Mississippi.

Additional lawsuits may be filed against Electrolux in the future. It is not possible to predict either the number of future claims or the number of plaintiffs that any future claims may represent. In addition, the outcome of asbestos claims is inherently uncertain and always difficult to predict and Electrolux cannot provide any assurances that the resolution of these types of claims will not have a material adverse effect on its business or on results of operations in the future.

Hans Stråberg's comments

#### Conversion of shares

According to the company's articles of association, owners of A-shares have the right to have such shares converted to B-shares. Conversion reduces the total number of votes in the company.

In January 2010, at the request of shareholders, 439,150 A-shares were converted to B-shares. The total number of votes thereafter amounts to 39,048,843. The total number of registered shares in the company amounts to 308,920,308 shares, of which 9,063,125 are A-shares and 299,857,183 are B-shares.

#### Repurchase and transfer of own shares

For several years, Electrolux has on the basis of authorizations by the Annual General Meeting (AGM) acquired and transferred own shares. The purpose of the share-repurchase programs has been to enable adapting the capital structure of the Group and thereby to contribute to increased shareholder value, or to use the repurchased shares in conjunction with the financing of potential acquisitions and the Group's share-related incentive programs.

In accordance with the proposal by the Board of Directors, the AGM 2009 decided to authorize the Board to transfer own shares on the account of company acquisitions during the period up until the AGM in 2010. The Board of Directors did not request any mandate from the AGM to repurchase additional shares in the company.

The AGM also authorized transfers of up to 3,000,000 repurchased B-shares to cover costs that may arise as a result of the previous employee stock-option programs for 2002-2003 and the Electrolux Performance Share Program 2007.

As of December 31, 2009, Electrolux held 24,498,841 B-shares, corresponding to 7.9% of the total number of outstanding shares, see table on page 12.

## Annual General Meeting 2010

The Annual General Meeting of AB Electrolux will be held on Tuesday, March 30, 2010, at the Berwald Hall, Dag Hammarskjölds väg 3, Stockholm, Sweden.

#### Proposed dividend

The Board of Directors proposes a dividend for 2009 of SEK 4.00 (0) per share, for a total dividend payment of approximately SEK 1,138m (0). The proposed dividend corresponds to 30% of income for the period, excluding items affecting comparability. Tuesday, April 6, 2010, is proposed as record date for the dividend.

The Group's goal is for the dividend to correspond to at least 30% of income for the period, excluding items affecting comparability. Historically, the Electrolux dividend rate has been considera-

bly higher than 30%. Electrolux also has a long tradition of high total distribution to shareholders that includes repurchases and redemptions of shares as well as dividends.

No dividend was paid in 2008, as a consequence of the low income for the period, the sharp decline in demand and the great uncertainty on the development of the market for 2009.

#### **Nomination Committee**

In accordance with the decision by the Annual General Meeting in March 2009, Electrolux shall have a Nomination Committee consisting of six members. The members should be one representative of each of the four largest shareholders in terms of voting rights that wish to participate in the committee, together with the Chairman of the Electrolux Board and one additional Board member.

The members of the Nomination Committee have been appointed based on the ownership structure as of August 31, 2009. Petra Hedengran, Investor AB, is the Chairman of the committee. The other owner representatives are Ramsay J. Brufer, Alecta Pension Insurance; Marianne Nilsson, Swedbank Robur Funds, and Carina Lundberg Markow, Folksam Group. The committee also includes Marcus Wallenberg and Peggy Bruzelius, Chairman and Deputy Chairman, respectively, of Electrolux.

The committee will prepare proposals for the AGM in 2010, regarding Chairman of the AGM, Board members, Chairman of the Board, remuneration for Board members, Auditor, Auditor's fees and the procedure for electing nomination committee for the following year.

Shareholders who wish to submit proposals to the nomination committee should send an email to nominationcommittee@electro-lux.com

# Risks and uncertainty factors

Risks in connection with the Group's operations can, in general, be divided into operational risks related to business operations and those related to financial operations. Operational risks are normally managed by the operative units within the Group, and financial risks by the Group's treasury department.

#### Risks and uncertainty factors

Electrolux operates in competitive markets, most of which are relatively mature. Demand for appliances varies with general business conditions, and price competition is strong in a number of product categories. Electrolux ability to increase profitability and sharehol-

der value is largely dependent on its success in developing innovative products and maintaining cost-efficient production. Major factors for maintaining and increasing competitiveness include managing fluctuations in prices for raw materials and components as well as implementing restructuring. In addition to these operative risks, the Group is exposed to risks related to financial operations, e.g., interest risks, financing risks, currency risks and credit risks. The Group's development is strongly affected by external factors, of which the most important in terms of managing risks currently include:

#### Variations in demand

Demand for appliances is affected by the general business cycle. A deterioration in these conditions may lead to lower sales volumes as well as a shift of demand to low-price products, which generally have lower margins. Utilization of production capacity may also decline in the short term. The global economic trend is an uncertainty factor in terms of the development of earnings in 2010.

#### Price competition

A number of the markets in which Electrolux operates features strong price competition. The Group's strategy is based on innovative products and brand-building, and is aimed, among other things, at minimizing and offsetting price competition for its products.

A continued downturn in market conditions involves a risk of increasing price competition.

#### Changes in prices for raw materials and components

The raw materials to which the Group is mainly exposed comprise steel, plastics, copper and aluminum. Bilateral agreements are used to manage price risks. To some extent, raw materials are purchased at spot prices. There is considerable uncertainty regarding trends for the prices of raw materials.

#### Access to financing

The Group's loan-maturity profile for 2010 and 2011 represents maturities of approximately SEK 2,200m in long-term borrowings.

Electrolux has an unused revolving credit facility for long- or short-term back-up.

Risks, risk management and risk exposure are described in more detail in the Annual report 2008, www.electrolux.com/annualreport2008.

#### New accounting standards

#### IAS 1 Presentation of Financial Statements (Revised)

The Group has implemented the revised IAS 1, which is effective as of January 1, 2009. As a consequence, the Group's consolidated income statement includes items of other comprehensive income. Previously these items were reported within consolidated equity. Consequently, the consolidated equity statement is reported excluding these items. The change does not imply any new information or changes in key ratios.

#### IFRS 8 Operating Segments

This new standard replaces IAS 14, Segment Reporting, and prescribes the measurement and presentation of segments. Electrolux will report the same segments as previously. The impact of the new standard will be disclosed according to the standard, e.g., sales per country in the Annual Report.

The standard is effective for annual periods beginning on/or after January 1, 2009. The Group has applied the additional disclosure requirements in IAS 34, Interim Financial Reporting, in accordance with the new standard. As a consequence, assets and liabilities per segment are presented in the interim reports as from the first quarter of 2009.

## **Accounting and valuation principles**

Electrolux applies International Financial Reporting Standards (IFRS) as adopted by the European Union. This report has been prepared in accordance with IAS 34, Interim Financial Reporting, and ÅRL, the Swedish Annual Accounts Act and recommendation RFR 2, Accounting for legal entities, issued by the Swedish Financial Reporting Board. There are no changes in the Group's accounting and valuation principles compared with the accounting and valuation principles described in Note 1 of the Annual Report 2008 and the description on new accounting standards above.

This report has not been audited.

<sup>2)</sup> Cash-flow hedges refer to changes in valuation of currency contracts used for hedging future foreign currency transactions. When the actual transaction occurs, the result is reported within operating income.

<sup>3)</sup> Exchange-rate differences on translation of foreign operations refer to changes in exchange rates when net investments in foreign subsidiaries are translated to SEK. The amount is reported net of hedging contracts. In September, the Group changed source for the exchange rate for the VEF (Venezuelan Bolivar Fuerte) from the official rate to the parallel bank-market rate. This change in consolidation rate reduced the SEK value of equity by SEK 179m in the third quarter.

## **Definitions**

## **Capital indicators**

## Annualized sales

In computation of key ratios where capital is related to net sales, the latter are annualized and converted at year-end-exchange rates and adjusted for acquired and divested operations.

## Net assets

Total assets exclusive of liquid funds and interest-bearing financial receivables less operating liabilities, non-interest-bearing provisions and deferred tax liabilities.

#### Working capital

Current assets exclusive of liquid funds and interest-bearing financial receivables less operating liabilities and non-interest-bearing provisions.

# Total borrowings

Total borrowings consist of interest-bearing liabilities, fair-value derivatives, accrued interest expenses and prepaid interest income, and trade receivables with recourse.

## Net borrowings

Total borrowings less liquid funds.

# Net debt/equity ratio

Net borrowings in relation to equity.

## Equity/assets ratio

Equity as a percentage of total assets less liquid funds.

## Other key ratios

Earnings per share

Income for the period divided by the average number of shares after buy-backs.

#### Operating margin

Operating income expressed as a percentage of net sales.

#### **EBITDA**

Operating income before depreciation and amortization.

#### Value creation

Operating income excluding items affecting comparability less the weighted average cost of capital (WACC) on average net assets excluding items affecting comparability: [(Net sales – operating costs = operating income) – (WACC x average net assets)]. The WACC rate before tax for 2009, 2008 and 2007 is calculated at 12% compared to 11% for 2006 and 12% for 2005.

## Return on equity

Income for the period expressed as a percentage of average equity.

## Return on net assets

Operating income expressed as a percentage of average net assets.
